

Greetings from Kenya - Written by Peter, House Dad and Kenyan Executive Director

Jambo from Tobiah Home! Greetings everyone! The Tobiah family would like to thank you - our Children with Hope Family, for your continued prayers, support and the great work seen through the tireless kind hearts and generosity.

We've seen God's hand in all the daily activities and routines here in Kenya, which is a blessing to the ministry. There has been a tremendous growth of the kids for the past years. A total of 38 kids have come to the home; of which 19 are boys and 19 girls. A total of 9 kids in high school, 11 kids in Junior school and 13 kids in Primary school. Those that haven't joined school are 3 toddler boys and 2 babies.

Pray for the nine in high school. Alice is doing her High School final exam this year and preparing for college. The remaining eight are having their first experience in High School. As the Mother eagle does to the eaglets, so do we... "Time to learn how to fly".

Tobiah Christian Academy has over 100 students and 14 teachers. The school runs from playgroup to Junior school. It's well equipped with qualified teachers, spacious classrooms, modern laboratory, computer lab, well equipped library and suitable field to accommodate all the students for school activities.

Last year some of our kids participated in the regional chess tournament and we received first position as a school. The game was introduced with Uncle Dean during one of his visits to Kenya.

Early last year we also through your support acquired land on which are planning to build once we have money available. We also started building Junior high school mid last year, and by the end of the year we had 4 classes, a science lab, and bathrooms for both boys and girls completed. Glory to God!!!!

The beginning of this year God blessed us with a new school van which aids transport and markets the school in a special way.

This year after several discussions about the sale of our first children's home, the CWH Board agreed to find Realtors, and I am glad to mention the process speeding up.

You have been a blessing to Africa and every year we add on a building blocks - physically, emotionally, mentally, and spiritually.

"Do not despise these small beginnings, for the LORD rejoices to see the work begin, to see the plumb line in Zerubbabel's hand." (The seven lamps represent the eyes of the LORD that search all around the world.) Zechariah 4:10.

Thank you CWH family!
